### From The President

#### Greeting To My Fellow Isolates

There is not a lot to say , much like you, Elaine and I are keeping to ourselves and miss seeing all of you , at meetings and events

The club's schedule is up in the air as is our lives .

The only thing we can do is support each other in this time of crisis. If you need anything , please call or text , if I can help , let us( Elaine or I) know.

I do not see them lifting this isolation till May or even June , but it will be a good reason , to have a celebration and I am looking forward to “S.A.'s Survive” down at Port A , as this year it will have a whole new meaning for me .

Till we can see each other again , lets hang in there , stay well and reach out if you need anything . Prayers going out for all of you . DON

### From The Treasurer

### **Our Charity for this Quarter CRRC Summer School Meals for Children**

The CRRC Summer Feeding Program provides an extra allotment of food that is specifically intended for child nutrition during the summer months. Many children in our community qualify for and receive free or reduced meals at school during the school year, but are not afforded those meals during the summer months. This either puts an extra financial burden on struggling families or the children go hungry. Your donation to help us with this program is greatly appreciated!

Needs: Things that don't need to be cooked, microwave is O.K.

Mac -N-Cheese and Chef-Boy-AR-De (microwave) type foods, granola bars, fruit snacks, individual servings of puddings, fruit, jellos, chips.
